**JEREMY KIDD 2008 photograph *Ruby City 1*** dominates a wall surface with hot-rolled steel in the combined living/dining room. Texture diversity distinguishes the vintage furnishings, including the linoleum-and-bronze table and rosewood klismos chair by T.H. Robsjohn-Gibbings in the foreground and the shag sofas and gilt-edged cocktaile table in the background. The white lacquer gallery-style kitchen is from Poliform.
